## ABOUT ME

I am a passionate and hardworking individual looking to apply myself in a collaborative technical environment that promotes consistent professional development. With a well-rounded foundation in web application development and a background in architecture, I have the skills and foresight to solve problems with a combination of logic and creativity.

## SKILLS

HTML5	Jest/Enzyme
CSS3	Mocha/Chai
JavaScript/ES6	Design Thinking
jQuery	UI/UX
React/Redux	Sketch
Node.js	Illustrator
Express.js	InDesign

## PROJECTS

### Movie Tracker

- Created a site using the MovieDB API that allows users to create an account to store favorited movie data
- Built with: React/Redux, Router, Knex, CSS
- Tested with: Jest/Enzyme  
[github.com/davidbecker6081/movie-tracker](https://github.com/davidbecker6081/movie-tracker)

### BYOB

- Constructed an API to access data about Colorado breweries and beers through RESTful API practices
- Built with: HTML/CSS, JavaScript/jQuery, Express.js, Knex, PostgreSQL
- Tested with: Mocha/Chai/Chai-http

## EDUCATION

### Turing School of Software and Design

Certificate in Front-End Engineering

### Colorado College

B.A. in Sustainable Design

## EXPERIENCE

### Growth Co.

Digital Marketing Strategist

Assisted a small startup with E-Commerce, web design, and ad campaigns through platforms such as Shopify, Wordpress, Google Webmaster Tools, Google Analytics, Unbounce, and Google Adwords to help deploy first version of [www.valvesdepot.com](http://www.valvesdepot.com).

### Harrison Design

Architectural Technician

Worked with a high-end residential architecture firm in Los Angeles on custom projects ranging from small homes to conceptual design for a hotel. Directly assisted two project managers with home remodels. Helped update and improve drawings done with AutoCAD, Revit, and SketchUp.
